Annex 2 - Covided Questionnaire:
Patient identification

The **Annex 2** is a document to be completed at the same time as the Initial questionnaire. It **must be kept in the GP's office**. It **must** include the doctor's identifier, the patient number and the patient's last name / first name / date of birth.

This sheet will be the document linking the patient's real identity to his anonymous identity.

This Annex 2 is also intended to be a memo sheet for the general practitioner on the information remaining to be completed or transmitted for the study.

Country:

Region:

Doctor identifier:

Patient number:

Patient's name:

Patient's first name:
